

## ELECTRONIC HEALTH RECORDS

The availability of complete medical information when needed brought the innovation of storing the patients information electronically. Improvement of patient medical care was and is the catalyst for the electronic health record. Electronic Health Records 2e provides the conceptual theory and hands-on application students need to work in todays medical office. Hands-on practice uses fully-functional demo version of SpringCharts EHR software, downloadable from the Online Learning Center at no charge, is available for students to use. Visit the Online Learning Center at HamiltonEHR2e
