

LASIK Complications: Prevention and Management

This text is devoted to the prevention and management of LASIK complications. Each segment discusses not only management techniques for each complication, but also specific methods to avoid them. Descriptions are organized into sections including intraoperative, early postoperative, and late postoperative, with tables accompanying each section for easy referencing. With the experience of over 3000 LASIK procedures, the authors give concise descriptions of techniques for prevention and management of a variety of LASIK complications.
