

There is a continuing worldwide expansion of the elderly population, with an increasing proportion of these being aged 80 years and older. Cardiovascular disease predominates within this population. There is a limited knowledge base available to guide clinical cardiovascular care for the very elderly, coupled with the need to provide appropriate and cost effective care for these patients, this book covers all the ground in a single volume.

Rock face: Exhibition Catalogue, Advances in Parasitology, Vol. 25, Critical Care Nursing :: Synergy for Optimal Outcomes, Folk Songs for Solo Singers, Vol 2: Medium Low Voice, Book & CD (For Solo Singers) (Paperback) - Common, aruchoukyounikkiharuka002 (Japanese Edition), Hip Sonography, Dorchester in Old Photographs (Britain in Old Photographs), Prostate Cancer: Cell and Molecular Mechanisms in Diagnosis and Treatment (Cancer Surveys, Vol. 11), Perioperative Medicine: Managing Surgical Patients with Medical Problems, (Mon series mortar short master college entrance examination) metabolism and biological cells (1998) ISBN: 4010323248 [Japanese Import],
