

The Dinner Party: From Creation to Preservation

Judy Chicagos masterpiece The Dinner Party is a monumental work of art conceived as a symbolic history of women in Western civilization. Strategically countering the traditional erasure of womens achievements, this epic installation honours 1038 iconic, mythical, archetypal and historical women. This, the most definitive book to be published on Chicagos masterwork, reveals more fully than ever before the art and the artists expanded research into the rich history embodied in the installation. In lively contextualizing sections, Chicago discusses the creative genesis of The Dinner Party, the technical processes involved, and the works early - often hostile - reception by the art world, and its subsequent preservation and permanent exhibition. A magnificently produced book and the ultimate source on an iconic work that is taught in art history and womens studies courses around the world. Profusely illustrated throughout with documentary images and new photography that displays the work in detail. Publication coincides with the release of Gail Levins major biography, *Becoming Judy Chicago*, followed by the opening in March 2007 of the Elizabeth A. Sackler Center for Feminist Art, Brooklyn Museum, New York, permanent home of The Dinner Party
