

Family Practice: Gastroenterology for the Primary Care Physician (Audio-Digest Foundation Family Practice Continuing Medical Education (CME). Book 59)

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners physicians and other healthcare professionals with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Family Practice is specifically designed to provide the participant with state-of-the-art information which builds on the AAFP Core Educational Guidelines, including, but not limited to, the diagnosis and management of: Alcoholism & Substance Abuse Allergy & Immunology Cardiovascular Medicine Conditions of the Eye Conditions of the Musculoskeletal System Conditions of the Nervous System Conditions of the Skin Care of Adolescents & Older Adults HIV Infection/AIDS Human Behavior and Mental Health Nutrition Obstetrics and Gynecology Occupational Medicine Disease Prevention & Health Promotion Rheumatology Risk Management & Medical Liability Sports and Recreational Medicine Urgent and Emergent Care

The goal of this program is to improve the diagnosis and management of pediatric gastrointestinal disease and celiac disease. After hearing and assimilating this program, the clinician will be better able to:

- 1: Define and recognize eosinophilic esophagitis (EE) in children and select appropriate treatment.
- 2: Distinguish Crohn disease from ulcerative colitis in children with inflammatory bowel disease (IBD).
- 3: Use medical therapy such as aminosalicylates and corticosteroids appropriately in the treatment of pediatric IBD.
- 4: Discuss the pathogenesis, presentation, symptomatology, and extraintestinal manifestations of celiac disease (CD) in children and adults.
- 5: Choose the most sensitive and specific test for diagnosis of CD in the primary care setting.
